Philips myVision
LED bulb

5 W (25 W)

Bayonet cap Warm white

myVision

872790089868200

Energy saving without compromise

Replaces any energy saver

The next generation in energy saving: Philips energy saving MyVision LED bulbs. Highest energy saving and very long lifetime, instant light and unlimited switching..

Sustainable choice
- 80% to 90% energy saving

Long-lasting
- Up to 25 years lifetime

Direct light when turning the button
- Instant start

PHILIPS
sense and simplicity

LED bulb
5 W (25 W) Bayonet cap Warm white

Specifications

Technical specifications

- Mercury content: 0 mg
- Power factor: 0,5
- Rated power: 5 W
- Wattage: 5 W
- Wattage equivalent: 25 W
- Lifetime of lamp: 25 year(s)
- Rated lifetime: 25 year(s)
- Lamp current: 41 mA
- Lamp dimension (width): 59 mm
- Color rendering index (CRI): 80
- Lamp dimension (height): 105,5 mm
- Lumen: 230
- Rated luminous flux: 230 lm
- Color temperature: 2200 K
- Number of switch cycles: 20000
- Lifetime of lamp: 25000 hour(s)
- Rated lifetime: 25000 hour(s)
- Starting time: <0,5 s
- Lumen maintenance factor: 0.7 (at the end of the nominal lifetime) %
- Voltage: 220-240 V
- Energy efficiency label: A
- Fitting/Cap: B22
- Shape: Bulb
- Light effect / finish: Frosted
- Warm up time 60% light output: 0 s
- Dimmable: No
- Color: Warm White
- Wattage standard bulb: 25 W

Highlights

80% to 90% energy saving

Today, we have many different technologies available making light. Some need more energy, others less to give a comparable amount of light. This is what makes them more or less efficient. Standard lamps convert only 5% of the energy into light, while 95% are wasted as heat. Energy saving technologies delivers the same amount of light with 80% to 90% less energy consumption, simply less wasted heat. So they save energy and money.

Up to 25 years lifetime

Modern technologies have a longer lifetime than standard bulbs. With 25 years lifetime, one lamp replaces 25 standard bulbs. So they save money and last longer, year after year. The lifetime is based on the average usage of 2,7 hrs per day or 1.000 hrs a year. This average is influenced by the usage during different seasons (dark winter vs light summer), the weather conditions (sunny vs rainy dark day) and on the room where the lamp is used (short usage in bathroom vs long usage in living room).

Instant start

Immediate light when switching on, that is the promise of our instant starting energy saving lamps.
